Professional Objective	To pursue a career in the field of computer science and engineering in which I am able to use the skills I acquired through my education.
Education	Ohio State University, Columbus, OH GPA: 2.86 B.S. in Computer Science and Engineering Expected graduation May 2015
Skills	• Excellent oral and written communication skills • Languages known Python, Java, Shell Scripting, C#, C, Batch, Splunk, Bro, and Snort • Provisioning Machines for students, faculty, and staff • Intrusion Detection, Linux/Unix Database Admin, Networking
Experience	**Ohio State University(Student Security Analyst)** May 2013-Present Intrusion Detection, Linux Database Administration, using Splunk to query over an ever expanding database of 2TB a day. Provisioning servers and firewalls. Solving phishing-reports to the university. Looking for anomalies and detecting compromised accounts. **U-Haul Moving Rental and Storage(Customer Service Rep)** May 2013-Present Training new employees to follow policies and be efficient at their jobs. Timely manage trucks to get as much use out of them as possible. Handle financial transactions. Coordinate with team to get more work done. **Ohio State University(Administrative Assistant)** August 2012 – April 2013 Speaking, writing and editing materials when tasked were assigned and to help coordinate task to be done. Had to be self-motivated and worked mostly independently. **Dollar Tree (Cashier)** October 2011 – December 2012 Handle financial transactions, and training new employees while also working on a team. Deadlines had to be met so I had to work diligent and responsibly so that I would be even more reliable to the company. **Old Worthington Public Library(Volunteer)** August 2009 – May 2011 I had to speak and listen effectively and attentively to help patrons to fulfill the appropriate task. Assisted Librarian in coming up with ideas for programs and had to effectively manage my time. Also had to be detail-oriented and work independently.
Academic Project Experience	**Information Security Projects** Planed, came up with ideas, solved problems and provided support and assigned tasks to my team accordingly. The first project was to setup hosts and hardening the machines.
